THE DAILY NEWS.

Newport.
TUESDAY, APRIL 11, 1848.

BY O. F. JACKSON, 97-THAMES-ST.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

As the question whether the electors of this town will change the form of their municipal government is now an important and absorbing topic, we present to our readers in full the first annual report of the mayor of New Bedford, with a view to show the success which has attended the change from a town to a city form of government in that place.

The prevailing objections which have been urged against a city form for this town, are, that the expenses would be increased, without affording any guarantee for the enactment of better laws, or the more prompt execution of the same. How far the annexed message goes as evidence on those points in regard to New Bedford, all impartial readers will judge for themselves; and as our proposed charter is like that of New Bedford in its leading features, it is fair to infer that the same benefit would accrue to us, under the proposed change, that New Bedford now enjoys.

It will be borne in mind, that previous to the adoption of a city charter for New Bedford, repeated, but unsuccessful attempts were for some years made to organize an efficient, economical, and satisfactory government, under the old town form; which, having failed to satisfy the wishes and expectations of its friends, was now so generally approved, that few of its former opponents seem to deny its perfect adaptation to meet the wants and wishes of the entire community. The following is the address:

Gentlemen of the City Council.
Being assembled together in obedience to notice from the proper authorities, of our election by the People as their Representatives in the Administration of our Municipal Affairs for the ensuing year, it may be expected that, in accordance with custom on such occasions, I should present for your consideration such subjects relative to the leading interests of the City, as the situation in which I am placed may seem most obviously to require. In briefly recapitulating the occurrences of the past year, I shall not wait to enquire whether the system of government lately adopted, has satisfied or disappointed the expectations of its advocates; whether its administration has conciliated those who entertained doubts of the propriety of the change, or whether, under its provisions, the application of the law has been uniform to those who were unaccustomed to its restraints, in their illegal practices, the experience of one year is scarcely sufficient for a satisfactory decision; but whether the administration in reference to the best interest of the City has proved satisfactory; whether the laws for the protection of the public peace have been more or less respected; and whether the rights of persons and property have been rendered more or less secure, are questions which I shall leave an intelligent community to answer for themselves.

Under the difficulties and obstructions which unavoidably attend the action of the more intricate machinery of a City Government, we may congratulate ourselves on having advanced to our present position, however short it may be of our expectations and aim. That position, as it relates to the more important departments of our affairs, I will now endeavor to define.

I shall first advert to the administration of the laws which affects all other interests and the well being of the whole community. The authority of law, when rightly exercised, affords protection to all in the enjoyment of their liberty and rights. There is, however, a wide difference between liberty and license, and while liberty, under our government is compatible with obedience to law, license, if unrestrained in the mercenary, the lawless and the dissipated, will lead the unprincipled to infringe upon the rights and liberties of the virtuous, and against such interference it is the province of the law and its instruments to afford protection to the community. Its aid is extended to all, while it admits no preference in favor of

condition, sex or color. Its nature is paternal and merciful, not arbitrary or tyrannical. No power to interfere with its authority rests with any one entrusted with its administration. The power which created it can only alter or repeal it. The officer who executes it is not responsible for its provisions, but is bound by its own authority to enforce its enforcement.

The principal features in our system of Police are described in the Ordinance providing for the establishment of a City Police, which requires the appointment of a City Marshal, two Assistant Marshals and six Police men. It is made the duty of the City Marshal, placed by law at the head of the Constabulary force—or, in his absence it is equally the duty of his Assistant—to endeavor to the utmost of his power to preserve the public peace, prevent riotous disturbances and illegal practices within the several Wards of the City. He shall carry into execution within the City the laws of the Commonwealth and all the Ordinances of the City, and be vigilant in detecting and bringing to punishment all violations thereof. He shall receive all complaints made to him of violations of any of the laws or of the ordinances of the City, and shall on behalf of the City, cause all such offenders against such laws and ordinances to be promptly prosecuted before the Police Court and shall attend on behalf of the City at their trials. It gives a great pleasure to say that the duties of these officers, often arduous and disagreeable, and sometimes dangerous, have been fulfilled with faithfulness, efficiency and courtesy, by the gentlemen composing the Police during the past year.

The condition of the Night Watch deserves a passing notice, and it affords me much satisfaction to have this opportunity to express my approbation of the conduct of the persons who are members of that branch of the government. Their strict and unreserved adherence, in the performance of their duties, to the rules and regulations established by the City Council, by an ordinance passed May 20, 1847, entitles them not only to the confidence, but the thanks of the community.

There are now in the employment of the City, tenable and discreet men, who, with the Captain, comprise the City Watch. It is a pleasure to me to have the opportunity to express my approbation of the conduct of the persons who are members of that branch of the government. Their strict and unreserved adherence, in the performance of their duties, to the rules and regulations established by the City Council, by an ordinance passed May 20, 1847, entitles them not only to the confidence, but the thanks of the community.

One of the largest expenditures of the City is for the support of Public Schools. The requisite education of the whole number of children now growing up in our midst, who are destined soon to fill our places, incur the responsibilities and discharge the duties of citizens, can hardly fail, upon reflection, to be regarded as a subject of almost transcendent importance, in connection with the present and future well being of the community; and it is a cause of gratulation with every friend of improvement that the public mind is becoming aroused to the proper consideration of this portion of our duties, and to the strong claims of this interesting class of our population; and throughout our favored Commonwealth a very decided improvement has been manifest, within a few years past, in a more zealous cooperation in, and generous support of this great cause.

It cannot be questioned that mere economy dictates a liberal expenditure for the education of our children. Nearly in exact proportion as this interesting period in their existence is passed, (from the age of four to that of sixteen years)—in being properly trained and instructed, will be the probability of their becoming a useful, industrious, and in all respects, a virtuous community; as, by this successful training and useful education of the rising generation, will be administered to them the most effectual means for the prevention of vice and corruption, with all their direct and indirect burthens and dishonors to society, while by the same

means the most efficient aid will be rendered in securing its order, happiness and prosperity.

With this view of the subject, the great importance of securing the general and regular attendance of all the children in the City at the Public Schools, for an adequate amount of instruction, must be obvious to every considerate mind. Even a few children who may be suffered to grow up in idleness, and as an almost necessary consequence in vice also, are quite sufficient to spread the deadly infection around them, blighting the hopes and embittering the lives of both parents and children, while, to a certain extent, its leavening effects must spread through the whole mass of society.

I have the satisfaction of stating, you will find that I believe the School Committee elected to sit in the several Wards of the City, have been assiduously engaged, during the year, in the discharge of their important duties. For more definite and detailed information than can here be given, reference, will, of course be had to their report. I do not, however hesitate in declaring my own conviction, that while the efforts of the Committee have been strenuous and praiseworthy, and much has already been accomplished that has tended to the improvement of our Schools of every grade, still more satisfactory results may be confidently expected from the hearty co-operation of parents and our citizens generally, with the labors of the Committee, and the well-directed efforts of the teachers they employ. And with the impression that the influence of the community cannot be innocently withheld in the discharge of the high responsibilities to our children, I have reason to believe, that it could, in no way be better exerted, than in endeavoring, in all proper ways, to secure as far as is practicable, the punctual daily attendance of all the children in their respective Schools. However excellent may be the system of instruction adopted, and however competent the teachers engaged in the Schools, it cannot be expected that they will exert their desired and legitimate influence upon children who are tardy in their attendance, and often absent entirely, and are thus not only depriving themselves of the benefits of instruction, but are the cause of hindrance and vexation, both of the teachers and the pupils.

The necessity of improvement in this respect, than is afforded by the fact, that while there are only 11 towns and cities in the Commonwealth, which appropriate a larger amount than New Bedford for the education of each child within their respective limits, there are no less than two hundred and fifty-six in which the attendance of the children at School, is greater than ours. This attendance here seems to have reached only to fifty-seven per cent of the whole number of children between the ages of four and sixteen years; and when we reflect that so large a proportion of this interesting class are daily spending the time allotted for their instruction, without the enjoyment of the means so amply provided, the necessity for renewed exertion, seems too obvious to require further proof. How far a more regular attendance may be promoted by simpler and more attractive accommodations in the School rooms, by more vigorous efforts on the part of the teachers to inspire a love for their studies in the minds of the pupils, and particularly by avoiding as far as possible, the use of the rod, and the more repellent modes of corporal punishment, and relying more upon moral and religious training of the children—free, at the same time, from any sectarian prejudices,—by which the principles of self-government and their own moral accountability might be impressed upon them—are, I think, considerations deserving the earnest and continued attention of the School Committee.

To that body may also be referred the consideration of a law, passed at the last session of the Legislature, (approved March 23, 1847,) authorizing any city or town to appropriate such sums of money as it may deem expedient for the support of Schools, for the instruction of adults in reading, writing, English grammar, arithmetic and geography. Whether such a School may be required in this City, during any portion of the year, may deserve, as doubtless it will receive, the judgement of the School Committee. I cannot forbear the expression of my confidence, that for this, and all other requisite demands, the City Council will cheerfully provide whatever may be deemed necessary, to enable the Schools of our City to sustain the high reputation they now enjoy.

The expenditures of the School Department, for the past year, have been as follows: For salaries paid to the teachers of the several Schools, \$13,829 37
Salaries to the School Com. 430 66
to the Librarian, 50 00
cleaning school houses, 269 21
making fire and sweeping, 122 40
repairs and alterations of houses, 3,740 82
&c. 839 89
stoves, pipes and repairing do. 498 39

" books, 410.47
 " incidental expenses, 329.66
 Making a total of \$739.13
 Which leaves a balance in the
 Treasury to the credit of the De-
 partment of \$4,913.67.
 The next subject, which I wish to
 call your attention to, is the state of our Fire
 Department. I have never failed, on every
 proper occasion, to express my conviction
 of the importance of an efficient and well-
 regulated Fire Department in our City, ex-
 posed as we are to imminent danger from
 the concentration of a large amount of com-
 bustible materials in some places within our
 limits, and from the close proximity of many
 of our wooden buildings to each other, the
 subject has, for several years, claimed the
 attention of the community, and an ample
 protective body of our citizens had been or-
 ganized, whose character, for efficiency, in the
 management of the well provided appara-
 tus of the Department, had gained the en-
 tire confidence of the people, and would com-
 pare favorably with any similar establish-
 ment in the country.
 I regret, however, that it becomes my
 duty to inform you that on the seventh day
 of August last seven of the companies, viz:
 those attached to Engines No. four, five, six,
 seven, eight, ten and eleven, with the Hook
 and Ladder Company, voluntarily disbanded,
 leaving the department in a weak and dis-
 tracted condition; the firemen alleging that
 the annual allowance of ten dollars to each
 of their number, was not a sufficient re-
 muner-ation for their services. A petition
 signed by two hundred and twenty-five
 members of the department, had previously
 been presented to the City Council, asking
 that their compensation might be raised to
 twenty dollars and the refusal of the Coun-
 cil to grant this sum, was the immediate
 cause of this dismemberment. Our citizens
 have not, however, been left without pro-
 vision for the protection of their property;
 the Board of Firewards are clothed with au-
 thority to require the temporary assistance
 of the people, whenever it may be needed
 on an occasion of a fire, while, very fortu-
 nately, but few fires have occurred, and
 destruction of property has been impossi-
 ble. Two of the original companies have
 also continued their organization, and have
 been on the ground for service, with the
 usual promptness, at an alarm of fire. Se-
 quently to the resignation of the compa-
 nies before named, a body of fifty men of-
 fered their services and were approved by
 the Board of Firewards, as Engine Com-
 No. 7. Fifty more volunteers, for Engi-
 No. 10, and forty-seven for No. 11, were
 also approved. Engines No. two,
 and six, have now only about one-half the
 complement of men, while the Hooks
 should be laid up, but kept in order for
 use, should they be needed.
 With the Department in this unsatis-
 factory state, the propriety of some action
 on your part, gentlemen seems clearly
 and it is with the fullest confidence in
 the disposition of the City Council to endeavor
 to devise the means by which a well-
 organized force may again be raised, we
 shall enjoy, as heretofore, the confidence
 of the community, and by which the fire
 themselves may also become satisfied,
 I have spread these facts before you.
 The accounts expended for the use of
 Department during the year are as follows:
 For services of the Firemen, \$459.88
 " repairing Hose, Engines &c. 88.
 " one new Engine, No. 11, 77.
 " flat-staffs and flags by order
 of City Council, 93.
 " incidental expenses, 18.
 Making a total of \$638.69

is arising from the yard and grounds being open to the public, which have sometimes resulted in improper interference with the regulations of the establishment, and led occasionally to the disturbance and derangement of the inmates, decided to enclose about three acres of the land, with the house, by a fence ten feet high, which has been accomplished, and this, besides repelling the evils alluded to, will afford a necessary protection to the grounds which it is designated to improve.

A large amount of work has been performed upon the streets of the City during the past year, and it is probable that the present will require an equal expenditure. The light earth which has hitherto been used in repairing the streets, has caused considerable complaint, and soon become fine and dusty. Could a more suitable material be obtained in the vicinity, without too great expense, it would not only obviate this difficulty, but with it, the streets would be able much longer to withstand the heavy travel to which many of them are subjected. Since the provision of scavenger carts, care has been taken by the Superintendent to have the streets and highways kept as clear as possible from the dirt and filth which accumulates upon them.

The cost of repairing the Highways during the year, including the flagging of the sidewalks, has been as follows:

| | |
|-----------------------------|---------------------|
| For labor: | \$5,219 1/2 |
| " one pair of oxen, | 105 6 |
| " plying and corbing stone, | 2,937 1/2 |
| " flagging stone, | 1,215 4 |
| " all other expenses, | 699 2 |
| Amounting to | \$10,176 1/2 |

Great complaint has been made, and in my opinion not without reason, of the condition of the street in front of the R. R. Road Depot, called Pearl street; as, during the winter season it is mostly covered with ice, which, in this sloping situation, renders it very unsafe. I would therefore recommend that this subject receive early attention of the City Council, that, soon as practicable, the difficulty may be obviated.

There remains one subject more on which it may be proper for me to indulge a few remarks,—and to which I allude with some satisfaction—which is the present condition of the Finances of the City. A detailed report of the Committee on Finance has been ordered, and will soon be printed and distributed among our citizens. By the report it will be seen that the aggregate expenditure of all the departments has fallen short of the receipts and appropriations by the sum of \$3,957 89. This balance remaining in the Treasury, will be appropriated to meet the current expenses of the city from March 1, 1848. The amount of Taxes collected and paid into the Treasury since the 1st of January, 1848, has been \$3,240 55, making the total receipts for the financial year ending March 1, 1848, \$78,872 81. The expenditure for the several departments during the same period, was \$71,235 92, and on account of the debt due the Merchants' Bank, \$3,921 39.

The City debt, at the commencement of the year, was \$32,050, upon which has been paid \$3,200 and the interest on the whole leaving the debt against the City, on 1st of March, 1848, \$29,850.

The result of our first year's experience when considered in connection with fears expressed by many, that a City of government would greatly increase expenditures, is peculiarly gratifying. The rate of assessment upon property the first year, was about \$4.27 on the thousand, which was less than that of some previous years, and considerably within the rate of many other cities and towns in the Commonwealth.

And now, Gentlemen, it is time for me to bring these remarks to a close, and to express feelings of gratitude to the Supreme Ruler of the world for the mercies vouchsafed us during the past year, and for the light and wise institutions which have been committed to us unimpaired from our fathers, and with desires that the wisdom Healed to their councils may guide our deliberations, let us enter upon the duties assigned us.

THE Length of the address of Mayor of New Bedford excludes much matter, but its interest to our citizens, at this time, is a sufficient apology, and for its insertion.

A fire broke out in Webb's ship New York, on Saturday evening, which destroyed a new steamship on the stocks, and burnt six horses to death.

The receipts of the Baptist Foreign Mission Society, for the month of March, amount to \$20,060.

The donations to the American Institute, for the month of February, amount to \$23,269.

The amount of specie in all the banks in the United States, by the last report, may be stated at about forty millions of dollars, or less than two-thirds of the amount in the Bank of England.

A Lieut.—Jean Paul, that wicked priest of womankind, thus closes a paragraph:—

"Even in church, the women sing more fervently than the men, in order to attract the notice of the priest."

FOUR DAYS LATER FROM EUROPE.

The steamship *Albertina* arrived at New York on Sunday night, with dates from Liverpool to the 26th of March.

The revolution in France still progresses. Never before have the people obtained so great power and authority. Their ascendancy is complete. Instead of imperial or monarchical despotism, they have a government purely and essentially republican.

On the 23d ult., bills have been passed by the Belgians and Germans calling upon the French to give them arms and march with them to Belgium and Germany to establish republican governments in those countries, about 5000 people assembled at noon. They contented themselves, however, with burning their national flags.

All idea of war with the continental powers is at an end, except as regards Russia.

Many Polish emigrants have left Paris with the intention of penetrating into Poland and raising the standard of revolt. Their countrymen in Paris are looking with great anxiety to the result of their exertions. All the Russians in Paris have received orders to leave immediately.

Fears are entertained that the elections in the provinces would be unfavorable to the Provisional Government.

Ten thousand Savoyards paraded in Paris and invited the Sardinian Minister to place himself at their head; he refused. After paying homage to the martyrs of liberty at the Place Bastille, they proceeded to the Hotel de Ville and demanded of the Provisional Government the title of French citizens. M. Lamartine replied that having made the demand collectively, they should make it individually and it would receive attention.

A new democratic club was opened on the 11th ult. Nearly two thousand assembled. Its object is the union of all the German States in one great republic, and within that union to secure perfect freedom, equal rights, religious toleration and liberty of the press. The members of the club are to hold themselves ready to turn to the assistance of German republics whenever requested.

A manifesto urging all the Germans to revolt against their governments.

Fifty-one political clubs have been formed in Paris since the revolution.

By orders of the Government, battalions of moveable National Guards are formed in the principal towns of France. But two months elapse, France will have a guard of 150,000 men.

M. Collet, formerly an attache to the Embassy in London, is charged for the present with the superintendence of the affairs of the embassy, but not accredited Minister at the Russian Court.

RUSSIA.—The Russians in Paris are preparing to leave on a hint from the legation that they would thus avoid offending the Emperor.

The rumor of the death of the Emperor of Russia was unbounded.

The general commotion throughout France and Germany has scarcely had time to produce an effect in Russia.

The Emperor Nicholas has ordered immediate organization of all the military reserves. A large portion of the Russian army is to be placed on the war footing assembled early in April.

GREECE.—Greece is in a ferment. Troops are marching in every direction. King Otho's reign is probably drawing to a close.

BAVARIA.—The French Government telegraphic dispatches announcing that King of Bavaria had abdicated. No other particulars are given.

In Bavaria a constitutional revolution has taken place. The people are delighted at their victory. The troops and the clergy have sworn allegiance to the constitution.

SICILY.—Sicily has obtained the constitution of 1812, and seems resolved to have a free government, independent of Neapolitan interference. Notwithstanding the government had reinforced the garrison of Messina, the Messinese stormed the fortress of St. Salvatore and put great numbers of the garrison to the sword. It is confidently affirmed that the English government determined to support the Sicilians in maintenance of the constitution of 1812.

POLAND.—The inhabitants of Congress have proclaimed a republic. 15,000 troops are under arms. On the 26th

people to release 400 prisoners, who were im-
prisoned in the recent insurrection.

AUSTRIA.—M. Rothschild has subscribed
100,000 florins towards the payment of the
National Guards of Vienna.

A liberal constitution has been granted
to Hungary by the Emperor.

SPAIN.—In every where quiet. The
Government has disclaimed any intention
of advancing the Duke of Montpensier to
the head of the artillery.

IRELAND.—The great monster meeting
passed off without outbreak. Richard
O'Gorman, Sen. was chairman. An ad-
dress to the French Republic was adopted,
expressing sympathy for the new govern-
ment. Mr. O'Donoghue moved an address
to the Queen, praying for the repeal of the
act of legislative union. The government
has arrested Messrs. O'Brien, Meagher and
Mitchell for seduction.

The riots in Glasgow had consider-
ably increased but no further disturban-
ces had occurred at the latest date.

ROME.—The Pope has issued a formal
proclamation of the new Roman fundamen-
tal constitution. The College of Cardinals
chosen by the Pope is to be constituted a
Senate, and the deliberative councils for
the formation of the law are to be estab-
lished consisting of the high Council, and the
Council of Deputies.

The judicial tribunals are to be independent
of the government, and no extraordinary commis-
sion court are to be in future established. The National
Guards are to be considered an institution of the
State. The Pope convokes and presides the leg-
islative Chamber and dissolves the Council of De-
puties, being required to convocate a new Chamber
within three months which will be the ordinary
duration of annual sessions. The sessions are to
be public. The members of the Senate are to be
appointed by the Pope for life; their number is
limited. The Pope will appoint the President and
Vice President. The second Council will be elec-
tive, on the numerical basis of one deputy to every
30,000 inhabitants.

From Milan the news is to the 18th of March
The people were not satisfied with the Emperor's
promise to grant a constitution, and the discontent
had broken out in open resistance to the govern-
ment. Barricades had been erected in the streets
and when the courier left a struggle was going
on between the troops and the people.

A letter from Turin, dated the 18th, states
that when the war had ended the Austrians
evacuated the city.

On the 19th, King Charles Albert, of Sardinia
published a general amnesty.

Advices from Naples announce the expulsion
of the Jesuits from that city.

Great distress exists in commercial affairs
throughout the continent.

CORRIG.—Mobile and Upland have declined
to join New Orleans.

One of the most important effects of the
great progress of Science is the alliance of Chem-
istry with Physiology. By which a new and un-
expected light has been thrown upon the
processes of animals. For this we are, indeb-
tedly, to the German and French chemists.
We have now a clear understanding of the differ-
ent acts of aliment, poisons, and remedi-
agents, and the long denied theory of the blood
being the portion of the system upon which
all other acts, is now a demonstrated truth.
The great object, therefore, is to ascertain
remedy will act most directly upon the consti-
tents of the blood when in the act of combin-
ing. Experience, observation, and a cloud of witness
establish the fact that SAND'S SARSAPAR-
ILLA is the very head of this class. Cancer,
scrophulous, salt rheum, erysipelas, leprosy, ringworm,
mercurial diseases, suppuration of the glands
swellings of the joints, and all the diseases of
the muscles and tissues, together with general debility
of the system, yield to this untailing purifier of
blood—for the blood is the channel thro
which disease finds its way to the various org-
ans of the body.

Prepared and sold by A. B. & D. SAN-
DRUGGISTS, 100 Fulton st. N. Y.

Sold also by Dr. R. R. Huxard and R. J. T-
lor Newport, by J. Russell, Fall River, by C. D-

AN INTELLIGENCE OFFICE has been opened by its subscriber, on the corner of Prospect Hill and Thames street, for the purpose of supplying those in want of help, or procuring situations for those in want of one. HENRY MURDOCK, mar 16th.

To Let.
THE new Cottage, situated on the hill in John street. Possession given 1st of May. The above cottage is large, convenient, pleasantly situated, and has been dwelt in but one year. For further particulars enquire at Store No. 98 Thames St. [Mar 14] J. H. COZZENS.

25 Bbls R. J. GREENINGS, now on hand in good order, and for sale at RIDER'S, mar 13. 97 Thames St.

SOMETHING FOR EVERYBODY. The Great demand for Paul's Rose, Oris, and Teaberry Tooth Paste has determined the proprietor to reduce the price; and is now offered to the public, as the best and cheapest Dentifrice in use. Sold at 12 1/2 cents per box by Feb 26. R. J. TAYLOR AGT for Newport.

GENTLEMEN'S White Kid Gloves, at 25 Cents a pair, for sale by E. W. LAWTON & SON, Feb 24.

OAK ROW No. 2.
SPRING FASHIONS, 1874.
JUST received a large assortment of Beaver, Nutria, Mole Skin and Silk HATS, which, for elegance of style, beauty of finish, and splendor of trimmings, have never been surpassed in this market. Also a large assortment of Men's, Boy's and Children's CAPS, of the Spring styles, among which are Men's and Children's fancy Caps, of the latest French pattern; a new and distinctive style, characteristic of the Nation, so justly celebrated for their taste in the article of Caps.
Hats and Caps made to order, at the shortest notice. [Mar 18 2m] PARKER & WEAVER.

SPRING HATS.
JUST Received, at the BOSTON CLOTHING HOUSE, a large supply of HATS of the latest French Style, which will be sold LOWER THAN ANY EVER BEFORE OFFERED IN THIS TOWN.
Also a large lot of SPRING CAPS. J. H. COZZENS, m17. 93 Thamestreet.

New Goods.
FRESH Oranges, Lemons, Raisins, Figs, Currants, Citron, Fig Paste, Guava Jelly, Preserved Lemon Peel, Almonds, Filberts, English Walnuts, Southern Peanuts, Pop Corn, Assorted Preserves, Currant and Hemp Seed, Assorted Pickles, Haws and Principe Segars of the Choicest Brand, and many more choice goods, this day received and for sale cheap for cash at RIDER'S, March 21. 97 Thames Street.

Hang out our Banners on the outward walls, the cry is still they come!

GOP'S Newspaper Depot and Book Store, No. 3 Merchants Row and 99 Thames street, constantly has on hand and New York, Philadelphia and Boston papers received daily.

FRAGRANT TEAS!

WILLIAM NEWTON.

150 Thames Street, Newport, Rhode Island.

AGENT FOR THE

CANTON & PEKIN TEA COMPANY

OF New York.

THIS Company, although it claims to be the oldest Tea Establishment in America, does claim to have sold during the two years of its existence, more good, pure, and unaltered Tea, and at lower prices, than any other similar establishment in the United States.

The following is a list of their retail prices, which will be found to be nearly the same as those of other similar Companies. The only difference they claim is in the quality of the Tea.
